

## Post Graduate Diploma in Patinformatics (PGDP) Programme

- The very first Postgraduate Diploma programme of its kind in India imparting frontline instruction and training and skillsets in niche frontiers of patent information and analytics.
- Dedicated to fostering academic and technical excellence in patent informatics and analytics, to nurture well-trained, skilled and industry-ready patent engineers, patent information specialists and intellectual property practitioners.
- Highly interactive and lively class-room sessions with a unique blend of advanced tutorial content, cutting edge hands-on practice sessions, and one-month corporate internship, to facilitate excellent, all-round training and exposure of students to precepts and practices in patent analytics, patent information and intellectual property rights.
- Trained, experienced and dedicated in-house and external Faculty experts drawn from diverse backgrounds in academia and industry, imparting frontline instruction of diverse aspects of intellectual property law, patent analytics and patent information.
- Excellent career prospects in industry and law firms.
- Conducted by CSIR-URDIP within its institutional premises under the aegis of the Academy of Scientific and Innovative Research (AcSIR), an Institution of National Importance in India set up by an Act of Parliament.

### Comprehensive Curriculum:

- Introduction to IPR, patents and patent legislation.
- Basic and advanced patent searching on databases.
- Patent analytics & mapping and its application.
- Patent valuation, technology management.
